03**Our Services****Accounting****01**

We provide comprehensive accounting services that ensure your financial records are accurate, up to date and compliant with Tanzanian and international standards. Our services cover bookkeeping, financial statement preparation, reconciliation, and reporting. We provide accurate and timely financial reporting to support strategic decision-making and compliance with regulatory standards.

Auditing**02**

Our audit approach is rigorous, risk-based, and tailored to your business environment. We conduct statutory audits, internal audits, and special-purpose audits that not only satisfy regulatory requirements but also add value to your operations. Our auditors assess internal controls, detect inefficiencies, and highlight opportunities for improvement, all while ensuring transparency and integrity in your financial reporting.

Taxation**03**

Tax compliance and planning are essential yet complex aspects of running any business. At BAC, we provide end-to-end tax services that include tax registration, compliance filing, tax return preparation, and representation before the Tanzania Revenue Authority (TRA). We also offer proactive tax planning to help you take advantage of available incentives, minimize liabilities, and avoid penalties.

Advisory**04**

BAC offers high-level business advisory Services that support clients through strategic decision-making and organizational transformation. From feasibility studies, budgeting, and financial forecasting to business planning, and risk assessment, we help you navigate challenges with data-driven insights. Our advisory team acts as your business partner—offering clear, practical guidance on improving operational efficiency, maximizing profitability, and achieving long-term goals.

Company Secretarial**05**

Maintaining good corporate governance starts with proper statutory compliance. Our company secretarial services ensure that your business meets all regulatory obligations as required by BRELA and other government bodies. We assist with company registration and incorporation, preparation of board resolutions, filing of annual returns, changes in company structure, and compliance with the Companies Act.

Payroll Management**06**

Managing employee payroll can be time-consuming and prone to errors. At BAC, we offer efficient and confidential payroll management services that ensure employees are paid accurately and on time while fulfilling all legal requirements. Our services include salary calculations, statutory deductions (NSSF, PAYE, NHIF, SDL, HESLB, and WCF), and submission of statutory returns to relevant authorities.

04**Sectors We Serve****Manufacturing**

Manufacturing companies face complex cost structures, inventory management, and compliance with local and international standards.

BAC assists with Cost accounting and production tracking, Internal control systems for inventory and materials, Fixed asset management and depreciation and Compliance with industry regulations and tax incentives for manufacturers.

**Pharmaceuticals**

Pharmaceutical businesses require accurate reporting for research & development (R&D), regulatory compliance, and licensing. Our services include, inventory and expiry-date management systems, tax structuring for R&D investments, financial audits tailored to regulatory standards (e.g. FDA or WHO compliance) and budget forecasting for production cycles and market entry.

Trading (Wholesale/Retail)

Trading businesses operate with high volume, thin margins, and complex supplier/customer networks. BAC provides cash flow and working capital management, sales tax (VAT) reporting and filing, reconciliation of stock, sales, and supplier payments and import/export documentation compliance.

Transport

Transport companies deal with large fleets, high operational costs, and government regulations. Our tailored solutions include asset tracking and depreciation planning, expense controls for fuel, repairs, and logistics, licensing and statutory compliance support and route profitability and cost-efficiency advisory.

Printing & Promotional

This creative and production-driven sector demands flexible financial systems and project-based accounting. BAC helps with job costing and quotation validation, inventory and materials control, tax planning for seasonal projects and payroll and contractor management

Healthcare Services

Healthcare facilities require strict compliance, ethical billing, and risk management. BAC supports medical revenue cycle management, insurance claim reconciliation, payroll for healthcare staff and practitioners and financial compliance for hospitals and clinics.

Farming

We support both small-scale and commercial farmers with structured record-keeping, cost analysis, grant reporting, and financial forecasting. We address the sector's seasonality and risk by building financial systems that improve access to funding and enhance operational sustainability.

Construction

Construction businesses face complex project cycles, and our services include detailed cost control, contract management, and tender compliance. We help contractors and developers track expenditures per project, manage work-force costs, and ensure compliance with tax and labor laws across multiple sites.

Real estate

We offer financial reporting, tax planning, and lease management support tailored for property developers, managers, and investors. We provide accurate modeling for property acquisitions, sales, and rentals to ensure transparency and maximize return on investment.

Food service

Food service businesses, including restaurants, catering services, and chains, benefit from our integrated accounting solutions that handle inventory tracking, point-of-sale reconciliation, and payroll management. We assist in managing slim margins, staff turnover, and tax compliance in a fast-paced operating environment.

Agriculture

The agriculture sector, especially in commercial agribusiness, relies on us for financial planning, sustainability reporting, and cost efficiency tracking. We support operations involving crop production, cooperatives, and agrotech with systems that improve yield tracking and enable compliance with environmental and donor regulations.

Insurance

Insurance brokerage firms partner with us for commission accounting, regulatory compliance, and financial reporting. We implement tracking systems that manage premium flows, client funds, and commission structures, ensuring accurate reporting and compliance with TIRA and other regulatory bodies.

Retail

For the retail industry, we provide end-to-end accounting services that cover sales reconciliation, inventory control, and VAT compliance. Our expertise helps retail outlets maintain profitability across branches, streamline their financial processes, and enhance customer satisfaction through efficient financial operations.

Transportation and logistics

In the transportation and logistics industry, we design systems that manage warehousing, customs clearance, and fleet cost analysis. Our solutions help businesses optimize supply chain management, control operational costs, and comply with import/export tax regulations.

IT consultancy

IT consultancy firms work with us to handle project-based income recognition, contractor payroll, and VAT compliance. We offer strategic advisory to technology startups and firms, ensuring scalability while maintaining financial accuracy and regulatory compliance.

Information and communication Companies in information and communication equipment rely on us to handle warranty accounting, inventory tracking, and import-related tax matters. We Help these businesses manage supplier relationships, track product movement, and maintain transparent financial systems.

Media and entertainment

Finally, in the media and entertainment sector, we work with production houses, artists, and agencies to manage royalty accounting, project budgeting, and taxation of creative incomes. Our solutions are designed to support the flexible and project-driven nature of this industry, ensuring accurate reporting and compliance with IP and tax regulations.

At Burhani Associates & Co, our strength lies not only in our technical expertise but also in our deep understanding of the industries we serve. Each sector presents its own challenges, opportunities, and compliance landscapes, and we pride ourselves on delivering solutions that are as dynamic and adaptable as the industries themselves. Our commitment is to remain a strategic partner one that listens, analyzes, and guides clients with precision and care.

Whether you are in manufacturing, healthcare, real estate, agriculture, or emerging fields like ICT and media, our goal is to help you thrive through financial clarity, operational efficiency, and regulatory compliance. With BAC by your side, you gain more than an accounting firm you gain a trusted advisor with industry foresight, integrity, and dedication to your long-term success.

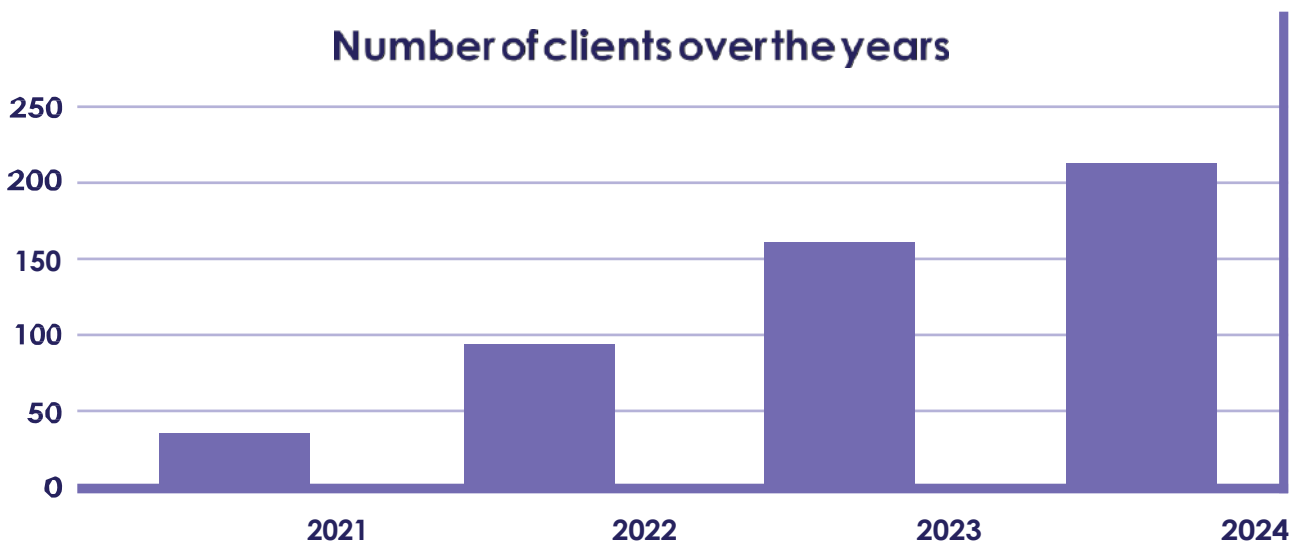

05 Our clients

At Burhani Associates & Co, our clients are at the heart of everything we do. Over the years, we have built trusted relationships with a broad spectrum of clients, ranging from emerging entrepreneurs and growing SMEs to large corporations and nonprofit organizations. logistics, ICT, real estate, and more.

We take a personalized, industry-specific approach to every engagement, ensuring that each client receives solutions tailored to their unique operational and regulatory environment. Our commitment to integrity, confidentiality, and quality has earned us long-standing partnerships and repeat engagements.
